Technology and Real Estate Council

What is the Technology and Real Estate Council?

The ULI Europe Technology and Real Estate Council will focus on exploring how technology and innovation in real estate and urban development can enhance customer experience and quality of life.

It is the eighth Product Council to be established by ULI Europe and is designed for industry leaders to meet, exchange ideas, share best practice and foster thought leadership in their sector-specific sector of the real estate market.

WHAT IS A PRODUCT COUNCIL?

<i>Topic-specific forums</i>	Sector or topic specific forums where industry leaders meet, exchange ideas, share best practices and foster thought leadership in their specific sector of the real estate market.
<i>International, senior, multi-disciplinary membership</i>	Consisting of a genuinely international and multi-disciplinary membership, the Councils provide a unique platform to learn from peers in the same sector who are operating in different geographical markets, as well as help shape the future of pan-European real estate.
<i>Topical, provocative and future thinking</i>	Feedback from members tells us that these meetings add value by facilitating a rich, open dialogue for industry leaders which is topical, provocative and future thinking. They aim to take down professional barriers to allow a free exchange of ideas and experience, and help careers by enabling members to steer their ideas and develop true friendships over time across a range of professions.
<i>When do the Councils meet and where?</i>	Membership of each Council is capped at a maximum of 50 people to ensure the quality of personal interaction between participants. The Councils meet in person twice a year, once in February to coincide with the ULI Europe Conference and in the second half of the year. Councils are now also holding up to four virtual meetings a year.
